### Product Description

## Firman Tri-Fuel Portable Generator 8000W Electric Start 120/240V - T08071

At FIRMAN, we have the best solutions for your most unexpected moments. So you can worry less and know we always have you covered!

The FIRMAN T08071 Tri-Fuel generator is a trifecta — running on gasoline, natural gas, and propane.

The T08071 is ready to work whenever you need it, on any terrain, regardless of your situation.

Coupled with a transfer switch, the T08071 can act like a great alternative as a portable, whole-home stand-by generator to get you through tough times after a big weather event.

It's the ideal candidate and the perfect option for those who enjoy camping, tailgating, and other recreational events.

*The T08071 comes with an engine oil bottle, oil funnel, spark plug wrench, a double open-ended wrench (10mm,12mm), LPG regulator with hose holder, and a cover.*
