Product Description

Kress Commercial 60V 35 N Backpack Blower- Tool Only

The only cordless commercial blower solution for professional use on the market. Extreme power and a very low sound level deliver the performance of gas without the noise. Thanks to the Kress silent technology, there is no issue disturbing customers & bystanders, or even having a conversation with a coworker. With a revolutionary battery and charging system, there are no concerns about being short on power for those landscapes that require extensive clean-up. An ergonomic backpack design that is adjustable and air permeable improves users' comfort and lessens fatigue. With an IPX4 waterproof design, superior power levels, and an elevated comfort level, the Kress commercial blower will address your landscaping needs no matter what the weather.
