Product Description

ODES PathCross 1000 Pro S ATV

STRENGTHENED CHASSIS GUARD

This could provide an even higher class of protection to the chassis of the vehicle to conquer rocky hard terrains.

TOP PLACED COOLANT EXPANSION

This design prevent excessive mud from covering the heat dissipation pads of the coolant tank which will maintain optimal engine cooling performance through seriously challenging terrain.

HIGHER WATER WADING DEPTH

With higher air intake, CVT intake & exhaust, fuel tank vent and waterproof ignition coil PathCross Mud series could wade deeper water than ever.
