Product Description

DPU3050H Reversible Vibratory Plate

These reversible plates are ideal for the compaction of interlocking paving stones, trenches, landscape and municipal applications. They come with a unique, integrated wheel set that provides easy one-person movement around the job or shop.

Features:

- Single lever direction control provides for easy forward and reverse operation.
- Adjustable guide handle can be locked into a vertical position for easy transportation and storage.
- Easy access throttle control simplifies operation and reduces operator fatigue.
- Heavy duty frame features an integral central lifting point for easy on/off loading and placement of plate into trenches.
- Specially designed shock mount system offers virtually vibration-free guide handle for operator comfort and increased productivity.
