Product Description

STIHL FC 56 C-E Edger

Give your home that professionally landscaped look with the STIHL FC 56 C-E edger. With its fuel-efficient, low-emission STIHL engine, this edger powers through curbside annoyances like overgrown grass, thick weeds, and compacted soil. And thanks to its semi-automatic choke lever and Easy2Start™ system, starting the edger is easy – gently pull the cord and start defining your outdoor spaces. Its adjustable depth wheel even lets you select different cutting depths, so you can give your walkways, driveways, and areas of your property the perfect amount of definition.
