Product Description

Maruyama MM91 Backpack Mist Blower

Maruyama backpack mist blower is a versatile and productive tool engineered for many applications that require the low-pressure air movement to reach places otherwise proven difficult to reach and deliver an even chemical mist. Ideal for use in lawn care, agriculture, golf, pest control, mosquito control, sanitation, parks and Recreation and tree care industries. The MM91 will reach even the most challenging targets with its amazing force.

Featuring a new Adjustable Flow Dial to allow operator adjust flow from 0 up to amazing 1 Gallon per minute. Fully padded for impressive operator comfort, side throttle for easy operation and comes with a Revolutionary Turbo Nozzle designed to provide the perfect coverage in vertical and horizontal application.

The MM91 is powered by a late generation Maruyama CER800 TWO-CYCLE Engine. Packing 79.2 cc equivalent to 4.5 horsepower. Featuring an all-new Assisted Starting System, even the softest pull can start the MM91 backpack mist blower.
